PROJECT COMMUNICATION PLAN

DATE	13th July 2026
PROJECT NAME	AdForge AI: AI-Powered Advertisement Copy Generator
MAXIMUM MARKS	1 Mark

COMMUNICATION PLAN STRATEGY

S.NO	TYPE OF COMMUNICATION	PURPOSE	FREQUENCY	MODE / CHANNEL	AUDIENCE	OWNER
1	Daily Progress Tracking	Review daily coding tasks, log software bugs, and update local development milestones.	Daily	GitHub Projects / Notepad	Sunehri Sharma	Sunehri Sharma
2	Milestone Planning	Scope out core execution phases (UI/UX layout, Flask framework integration, secure API configuration).	Per Project Phase	Notion / VS Code Workspace	Sunehri Sharma	Sunehri Sharma
3	Project Mentor Sync	Share development status updates, resolve complex technical architectural blockers, and receive deployment feedback.	Weekly / As Needed	Google Meet / Email	Project Mentor	Sunehri Sharma

S.NO	TYPE OF COMMUNICATION	PURPOSE	FREQUENCY	MODE / CHANNEL	AUDIENCE	OWNER
4	Code & Security Review	Perform self-audits on software performance, optimize code paths, and verify complete active encryption and .gitignore protection patterns.	End of Phase	VS Code Terminal	Sunehri Sharma	Sunehri Sharma
5	Final Project Submission	Submit production codebase repository link, absolute live active ngrok deployment URL, and crisp visual application runtime demo video.	Final Milestone	Skill Wallet Portal	Evaluator / Mentor	Sunehri Sharma

COMMUNICATION

Defines explicitly how the developer will communicate throughout the lifecycle of the project—detailing the exact types of engineering communication, target tracking objectives, baseline review frequencies, chosen tools, operational audience targets, and the responsible individual execution owner.
