

ADFORGE AI — PROJECT DOCUMENTATION

CUSTOMER JOURNEY MAP

PROJECT METADATA

- **Date:** 7th July 2026
- **Development Profile:** Sunehri Sharma
- **Project Name:** AdForge AI — Automated Multi-Platform Copy System
- **Maximum Marks:** 2 Marks

CUSTOMER JOURNEY MAP MATRIX

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey PDF	Stage 1: Input & Configuration PDF	Stage 2: Processing & Generation PDF	Stage 3: Review & Refinement PDF
Actions <i>What does the customer do?</i>	* Inputs the core product/brand name, features, and description. * Selects target networks (Google Ads, Instagram, Facebook). * Selects the desired brand voice tone (e.g., Playful, Professional, Urgent).	* Clicks the "Generate Ad Copy" execution button. * Monitors the progress status indicators on the workspace. * Receives multi-platform copy variations and campaign slogans.	* Evaluates and compares the newly generated ad copy on the canvas. * Copies preferred variants using quick clipboard features. * Inputs specific modification feedback to tweak and refine outputs.

Phase of Journey PDF	Stage 1: Input & Configuration PDF	Stage 2: Processing & Generation PDF	Stage 3: Review & Refinement PDF
Touchpoint <i>What part of the service do they interact with?</i>	* Front-end input configuration form. * Brand voice selection grids and target platform checkboxes.	* Interactive processing status indicators. * Backend Flask API connected with Groq's LLaMA 3.3 model.	* Results visualization panel presenting emojis, slogans, and tag lists. * Interactive prompt feedback text box for copy refinement.
Customer Thought <i>What is the customer thinking?</i>	* "I hope choosing different tones actually alters the vocabulary style so my ads don't look generic." * "This needs to comply with the strict headline character limits of Google Ads."	* "Will this engine really write native copy for three platforms simultaneously?" * "I hope the generation process is fast and error-free."	* "The Instagram captions with emoji layouts look great." * "I can copy these and launch my A/B campaigns right now."
Customer Feeling <i>What is the customer feeling?</i>	* Optimistic and motivated to scale their ad campaigns. * Slightly skeptical about whether an AI can naturally mimic their brand voice.	* Eager and curious while watching the system process the prompt.	* Relieved and highly productive. * Empowered by saving hours of manual drafting and cross-platform formatting.
Process	* Frontend System	* Core AI Architect	* UI/UX Designer
